

ACCUMAX

BEST IN CLASS QUALITY

Accumax
Serological Pipette

Accumax Serological Pipette

Accumax Serological Pipette is engineered to deliver precision and ease of use, making them an essential tool for any laboratory. Crafted from pure contaminant-free, high-grade polystyrene, it ensures the purity of your samples while offering clear, accurate volume readings with bidirectional graduations.

Whether you're handling delicate tasks or large volumes, these pipettes are designed to enhance efficiency with features like negative graduations for extra working capacity and color-coded identification for quick selection.

With advanced sterilization and rigorous certifications, Accumax Serological Pipette guarantees both safety and performance, making them the go-to choice for labs prioritizing accuracy and reliability.

Product Features

Excellent Accuracy $\pm 2\%$

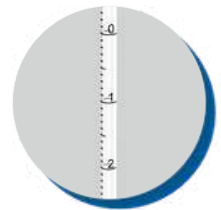

Manufactured in ISO approved
clean room facility using
USP Class VI Raw material

Certified RNase, DNase,
latex and pyrogen free

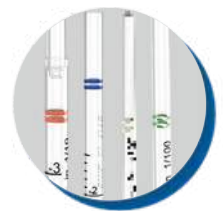

Bidirectional graduations
provide added applicability

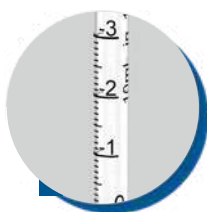

Gamma Sterile
SAL 10^{-6} product ensures
maximum sterility

Colour-coded for easy
identification

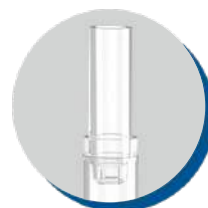

Product Features

Negative graduations allow additional working volume

PET filter plug prevents contamination and maintains sample integrity

Individually wrapped in traceable paper-plastic peel-back packs showing lot number and expiry date for visual determination

Efficiently designed box packaging for easy removal and quick access to each pipette

Manufactured in ISO 9001 and ISO 13485 Certified Cleanroom
